Student who went in 2007

Isis Montes, Liberal Studies

"The trip to Paris was a very wonderful experience. I got to meet a lot of nice people. The program was great, we went to many places. The program not only included Paris, but we also got to go to Britain and Normandy. Wonderful people—I will never forget it! Every day we saw something new, and the best of all is meeting people of other cultures. For transportation to go around Paris, was the metro! and it was the best. By the way, the best of the program was that it was all well organized, for each day something new was planned and all the staff were wonderful people. For this experience, I really want to thank Miriam Ungson for all her help and support!" Isis Montes
