# AZTEC OF THE MONTH

“Hello Aztecs,

I am a senior at San Diego State University-Imperial Valley Campus majoring in Psychology. As an Aztec, I have numerous experiences that have imprinted great memories that I will treasure. My best college experience was when I was elected Associated Student President. I am proud to have been an A.S. member for the past three years and held multiple leadership positions that allowed me to serve the students. Serving as an A.S. member has always been something I love to do. I believe that being involved with student government lead me to various opportunities. During my sophomore year, I was recommended for a job with Imperial Valley Regional Occupational Program as a Foster Youth Advocate and recently I was selected for an internship with the City of Calexico. Working part-time along with attending San Diego State has allowed me to grow professionally. I feel that with the experience I earned,

I am better prepared and qualified to enter the workforce and to continue my education as a graduate student. Graduation is fast approaching and I have been applying to various graduate programs. San Diego State University recently interviewed me for the Masters of Arts in Postsecondary Educational Leadership and a Specialization in Student Affairs program. Arizona State University has recently accepted me into the Masters of Arts in Educational Policy and Evaluation program. My educational goal is to obtain a Master’s Degree in Higher Education. Of course not all has been easy, there has been many challenges along the way but there has always been people that have crossed my path to get to where I aspire to be. I believe that I would have not be where I am without being involved on campus. Without my academic achievement, work and leadership experience I would have not been a competitive candidate in a pool of qualified students applying to graduate schools. On a final note, I highly recommend Aztecs to get involved.”
