Hi! My name is Arminda Garcia, I’m from Brawley and I’m a junior at San Diego State University-Imperial Valley. I’ve been attending SDSU-IV since my freshman year through the IVUP program and will graduate in 2021 majoring in psychology. I’m not 100% sure what my future career plans are just yet but I’m looking forward to figuring that out this school year. I know that I definitely want to help people and give back to the community in some way. The opportunity to go to university at an affordable cost and staying close to my family is one of the things I really like about the campus. I also have had the chance to work for the A.S. where I’ve met and got to know a lot of great and friendly people. All in all, I’ve really enjoyed my time studying at SDSU-IV and I’m so grateful for the things I’ve learned and new friendships I’ve made.”
