Master of Science

Nursing Leadership in Health Care Systems

San Diego State University-School of Nursing is offering a cohort model program at San Diego State University-Imperial Valley. The individualized program focuses on preparing nurses for leadership positions at all levels of health care organizations with the specific aim to prepare visionary and innovative nurse leaders who can transform the future of health care delivery in Imperial Valley and beyond. The curriculum is founded on the AONE Certified Nurse Leader and Manager and Nurse Executive competencies. The framework for the courses embraces the knowledge and skills in leadership, professionalism, communication, and relationship management, business principles and skills, and knowledge of the health care environment.

Program Overview

- *Cohort model with hybrid courses, a summer immersion session, research opportunities and coaching by faculty*
- *37 units over 2 years (Fall 18, Spring 19, Summer 19, Fall 19, Spring 20)*
- *Estimated tuition cost is \$16,000*
