Degree Programs

You must first complete a Bachelors degree in behavior analysis, psychology, or education. Then to pursue your carrier you will need a master's degree can be granted through an online or campus-based program, but must be from an institution accredited by an agency recognized by the Council for Higher Education Accreditation (CHEA).

AT A GLANCE

- What are the benefits of being a behavioral therapist?

Working in ABA therapy offers a chance to build a rewarding career focused on positively impacting people's lives. Therapists spend their time helping children or adults understand the behavioral challenges they are experiencing and teaching them ways to handle these difficulties.

WHERE CAN YOU WORK?

- Schools
- Health Clinics
- Hospitals
- Community Centers
- Private Institutions

Working in the mental health field provides opportunities to give others life-changing support. You are able to offer compassion, inspire hope, and teach the skills needed to overcome challenges.

You may work with people of all ages on issues such as stress, communication, or self-esteem. To change their life's for the best!
